QLF Beef Equipment

**Equipment
Recommendations for
Your Beef Operation**

Equipment Recommendations

A simple toggle of an on/off switch allows liquid supplements to be easily and accurately applied to a ration batch. This increased level of control offers the potential for more accuracy than with supplements delivered through a slide gate or with a front-end loader.

| | 6 Ton Drop | 12 Ton Drop | Full Truckload | Cost |
|--------------------------------|--|---|---|------|
| Tank | 2000 Gal | 3000 Gal | 6000 Gal | \$ |
| Hose & Fittings | | | | \$ |
| TMR Distributor/ Applicator | | | | \$ |
| Misc. | | | | \$ |
| Misc. | | | | \$ |
