Alfalfa Performance Proof
Bells Udder Farm - Camp Douglas, WI

BOOST your Alfalfa performance and achieve more quality forage.

Product Used: L-CBF BOOST
Application Rate: 6 Gallons per acre
Application Method: Foliar
Cutting: 4th

Quality: We see Relative Forage Quality advantages with BOOST treated alfalfa over the untreated trial with an eighteen-point improvement. Yield followed an upward trend with a 0.5 ton increase over the untreated. The NDFd values of BOOST treated alfalfa ameliorated the untreated trial by two units.

Economics: Research shows that a one-unit increase in NDFd is associated with a 0.37 increase in dry matter intake and a 0.55-pound increase in 4% fat corrected milk.
