L-CBF
7 – 21 – 3
Guaranteed Analysis

Total Nitrogen (N) ....................................................................................7.0%
   4.8 % Ammoniacal Nitrogen
   2.2 % Urea Nitrogen
Available Phosphate (P₂O₅) .................................................................21.0%
Soluble Potash (K₂O) ..............................................................................3.0%

Derived from:
Sugar Cane Molasses, Urea, Monopotassium Phosphate,
Ammonium Polyphosphate Solution

Usage Instructions:
QLF L-CBF 7-21-3 is a blended liquid fertilizer, which can also be used in combination
with other liquid fertilizers. Typical application rates are 1 – 10 gallons per acre; with
specific application rates based on crop and soil type. For information regarding specific
application rates, application methods, and mixing and handling instructions, consult
with your QLF L-CBF representative.

Always do a jar-test to determine compatibility with any other liquid fertilizer. This
product is water miscible allowing it to be applied through properly designed liquid
application equipment. If diluted with
water use within 72 hours of mixing.

SOLD AS A BULK LIQUID. FOR NET WEIGHT, SEE BILL OF LADING
